Comments on Screening Interview with Dr. CAO Jialun

Positive comments:

1. The candidate is strong and has a solid background.
2. The candidate is a strong contender in the SE domain.
3. She has relevant project experience.

Decision / Next steps:

1. Recommend proceeding to the next interview stage promptly.
2. The candidate has applied to schools in the Greater Bay Area (e.g., CUHKSZ and Tsinghua Shenzhen) as well as institutions in Hong Kong. She has participated in screening interviews with universities in Hong Kong and elsewhere, but has not received any offers yet.
3. She previously lived in Hong Kong for several years and may choose to go there if she receives an offer from a Hong Kong university. However, she is still worth actively pursuing her. She is stronger than the peer candidate [REDACTED]; if we can secure her, we may not need to interview [REDACTED].
