

Letter of Recommendation

To Whom It May Concern,

I am delighted to recommend Dr. Jiaping Xiao for your faculty position. As a member of his Ph.D. Thesis Advisory Committee (TAC) and his Ph.D. Examination panel, I have had numerous opportunities to engage with Jiaping and to monitor his progress throughout his doctoral studies.

Jiaping has consistently demonstrated exceptional research capabilities across multiple disciplines, tackling some of the most challenging problems in his field with remarkable achievement and innovation. His ability to devise insightful solutions and his relentless pursuit of addressing unmet challenges are truly commendable. Jiaping's approach to research is characterized by a deep commitment to scientific excellence and a keen intellect that enables him to navigate complex issues with ease.

During our discussions, I have been consistently impressed by Jiaping's analytical abilities and his strategic approach to problem-solving. He is not afraid from challenges; rather, he embraces them, viewing them as opportunities to advance his understanding and to contribute new knowledge to the field. His efforts have resulted in significant contributions to areas such as intelligent systems, robotics, artificial intelligence, and machine vision, which are evidenced by his publications in top-tier journals.

Having supervised so many researchers in my career, I can say with confidence that Jiaping stands out as one of the top researchers I have had the privilege to work with. His blend of intellectual curiosity, technical proficiency, and dedication to societal impact aligns perfectly with the goals of your position.

I have no doubt that Jiaping will bring excellence and strong contributions to your university and your school as he has to his doctoral studies even in a new challenging research domain. He is a visionary researcher with the potential to make significant contributions to the global scientific community. Thank you for considering this outstanding candidate for your position.

Sincerely,

Assoc. Prof. Chen Lyu

Director of Automated Driving and Human-Machine System (AutoMan) Research Lab
Nanyang Technological University
